## WORK EXPERIENCE

### Terminal Technology Engineer

#### Keelson Mgt. LLC

09/2017 - 03/2020

Long Beach, CA

Shared Services provider for Intermodal Terminal Operators

##### Achievements/Tasks

- Worked for a startup company on a small, agile team implementing new systems in order to transform Fenix Marine Services into a state-of-the-art facility and a profit center for its new owners, P5 Infrastructure.
- Spearheaded the Fenix Marine RTLS (Real Time Locating System) installation and integration into Vessel, Rail and Gate operations. Savings were realized of \$500k/mo. in labor costs and fees.
- Managed vendors and Union labor to implement an ABB OCR system on 16 ship-to-shore cranes. 98% accuracy for container handoffs and savings of \$35k/mo. in labor costs and fees.
- Acted as a Team Lead for a Terminal Operating System (TOS) replacement. SPARCS was replaced with Navis N4.

### Technology Operations Manager

#### Keelson Mgt. LLC

03/2020 - Present

Scottsdale, AZ

##### Achievements/Tasks

- Founding team member of cross-functional team that supports Fenix Marine Services through technical and operational expertise.
- Use of SQL and data analytics to optimize operational efficiency and system performance.
- Oversaw compilation and presentation of operational data and performance metrics.
- Create and manage dashboards for management review.
- Support of all systems and IT infrastructure at the Terminal including 24/7 On-Call support.

### Internal Wholesaler

#### Wealthvest

05/2017 - 08/2017

Bozeman, MT

Financial Services Institution specializing in Fixed and Fixed Income Annuities

##### Achievements/Tasks

- Worked alongside External Wholesalers to sell Annuities and Retirement solutions to Financial Advisors across the United States.
- Managed the sales pipeline for two multi-state regions while maintaining strong relationships with Advisors and generating new clients for the company.
- Coordinated with External Wholesalers, writing \$2-\$5 million of business monthly.
